Objective and Investment Policy

This Sub-Fund is passively managed. The Sub-Fund is a financial product that promotes among other characteristics environmental and/or social characteristics characteristics pursuant to Article 8 of the Disclosure Regulation, as further described in Annex 1 - ESG Related Disclosures to this Prospectus, replicating an Index integrating an environmental, social and governance (ESG) rating. The objective of this Sub-Fund is to track the performance of the MSCI Europe Screened Select ex Thermal Coal Index (the "Index") and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The anticipated level of the tracking error, under normal market conditions, is indicated in the prospectus of the Sub-Fund. The Index is an equity index based on the MSCI Europe Index (the "Parent Index") representative of the large and mid-cap stocks across 15 developed markets countries in Europe. Additionally, the Index excludes companies from the Parent Index based on ESG criteria and targets a minimum 30% reduction in greenhouse gas emission intensity relative to its Parent Index. The Index constituents are selected by applying a combination of value-based exclusions and an iterative process to reduce the carbon emission intensity relative to its Parent Index, as further described in Annex 1 - ESG Related Disclosures to this Prospectus. The remaining securities are weighted in proportion to their free-float-adjusted market capitalization. The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or othereligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Indexconstituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations. The MSCI Index methodology, composition, revision rules and additional information concerning the Index underlying components are available on msci.com.
